(54) STRETCHABLE LEATHERY MATERIAL

(57)Abstract:

PROBLEM TO BE SOLVED: To obtain a flexible leathery material having excellent stretchability while maintaining a conventional strength.

SOLUTION: This stretchable leathery material comprises a hard twisted knitted or woven fabric composed of a polyester latent type crimp textured yarn having at least $\geq 20\%$ stretchability in at least the warp and/or weft directions in the leathery material prepared by firmly entangling ultrafine fiber web having ≤ 0.8 denier and ≥ 20 mm main length with the hard twisted knitted or woven fabric in an integrally unseparable state and having the form retained with a polymeric binder.
